Subject: RE: 208 Water Quality Management Plan Available for Comment

I reviewed portions of the 208 Water Quality Management Plan, dated January 14, 2011, and wish to submit the following corrections to the draft.

1. Page 6 - Section I Introduction, second paragraph. In 2004 the Santee Lynches Regional Council of Governments not Lowcounty COG was the 6th COG to be approved as a planning agency.
2. Page 6 - Section I Introduction, third paragraph: Sumter is part of the Santee-Lynches COG Planning area and should be listed as a non-designated area.
3. Page 7 -Section II General Description of the Planning Area. Second paragraph: The same problem as #2, Sumter should not be listed with the non-designated area.

If you have any questions, please contact me.
